

## How are Payments Made?

The business cash advance investment companies are paid through your future Visa and MasterCard credit card sales. You keep 100% of your cash, checks, American Express, Discover and other form of payment acceptance. There are no fixed monthly payments. When business is good your payment will happen more quickly and during slow times, you can automatically take longer with no additional charge or late fees. There are:

- No Fixed Monthly Payments.
- No Late Payments Or Fees.
- No Harassing Collection Calls.

While this capital may be more expensive than traditional financing, keep in mind that over 92% of small business are declined for loans while over 90% of business owners *qualify* for business cash advances. This comparison is very misleading and perhaps it is better to consider a [comparison with venture capital investment](#). But unlike venture capitalists, family and friends, business cash advance investment companies do not take equity ownership of your business. As any business owner will tell you, loss of equity and/or control is the most expensive capital on the face of the earth.

Best of all, you can use the money for any business purpose you deem appropriate. Purchase new equipment, remodeling your store or restaurant, expand your business, invest in marketing to generate new business, meet payroll in a crunch, cover taxes, fund unexpected emergencies, purchase inventory at very favorable terms, or whatever you choose.
